Assoc. Prof. Dr. VO DAI QUANG

SOME WAYS OF EXPRESSING MODALITIES IN ENGLISH AND VIETNAMESE
Vietnam National University Press, Hanoi, 2009

Language carries meanings. One of the most salient types of meaning is modality. Referring to different stages in individuals' emotions and consciousness, modality is a complex research area in theoretical and applied linguistics. A deep understanding of theoretical concepts of modern semantics and pragmatics, along with appropriate research methodology offer a multifaceted, multi-layered and multi-dimensional picture of specific ways to convey modalities in English and Vietnamese.
